Dear Mr. Agnihotri,

My grade 1 class is learning that good citizens look after the environment. I care for the environment by: recycling at home and at school, putting litter in the right place, and by saving water.

My class has also learned that the grizzly bear's environment is under threat in Alberta. I think the grizzly bear is important because: they are part of our family, there are not many left, and they help keep the food chain balanced.

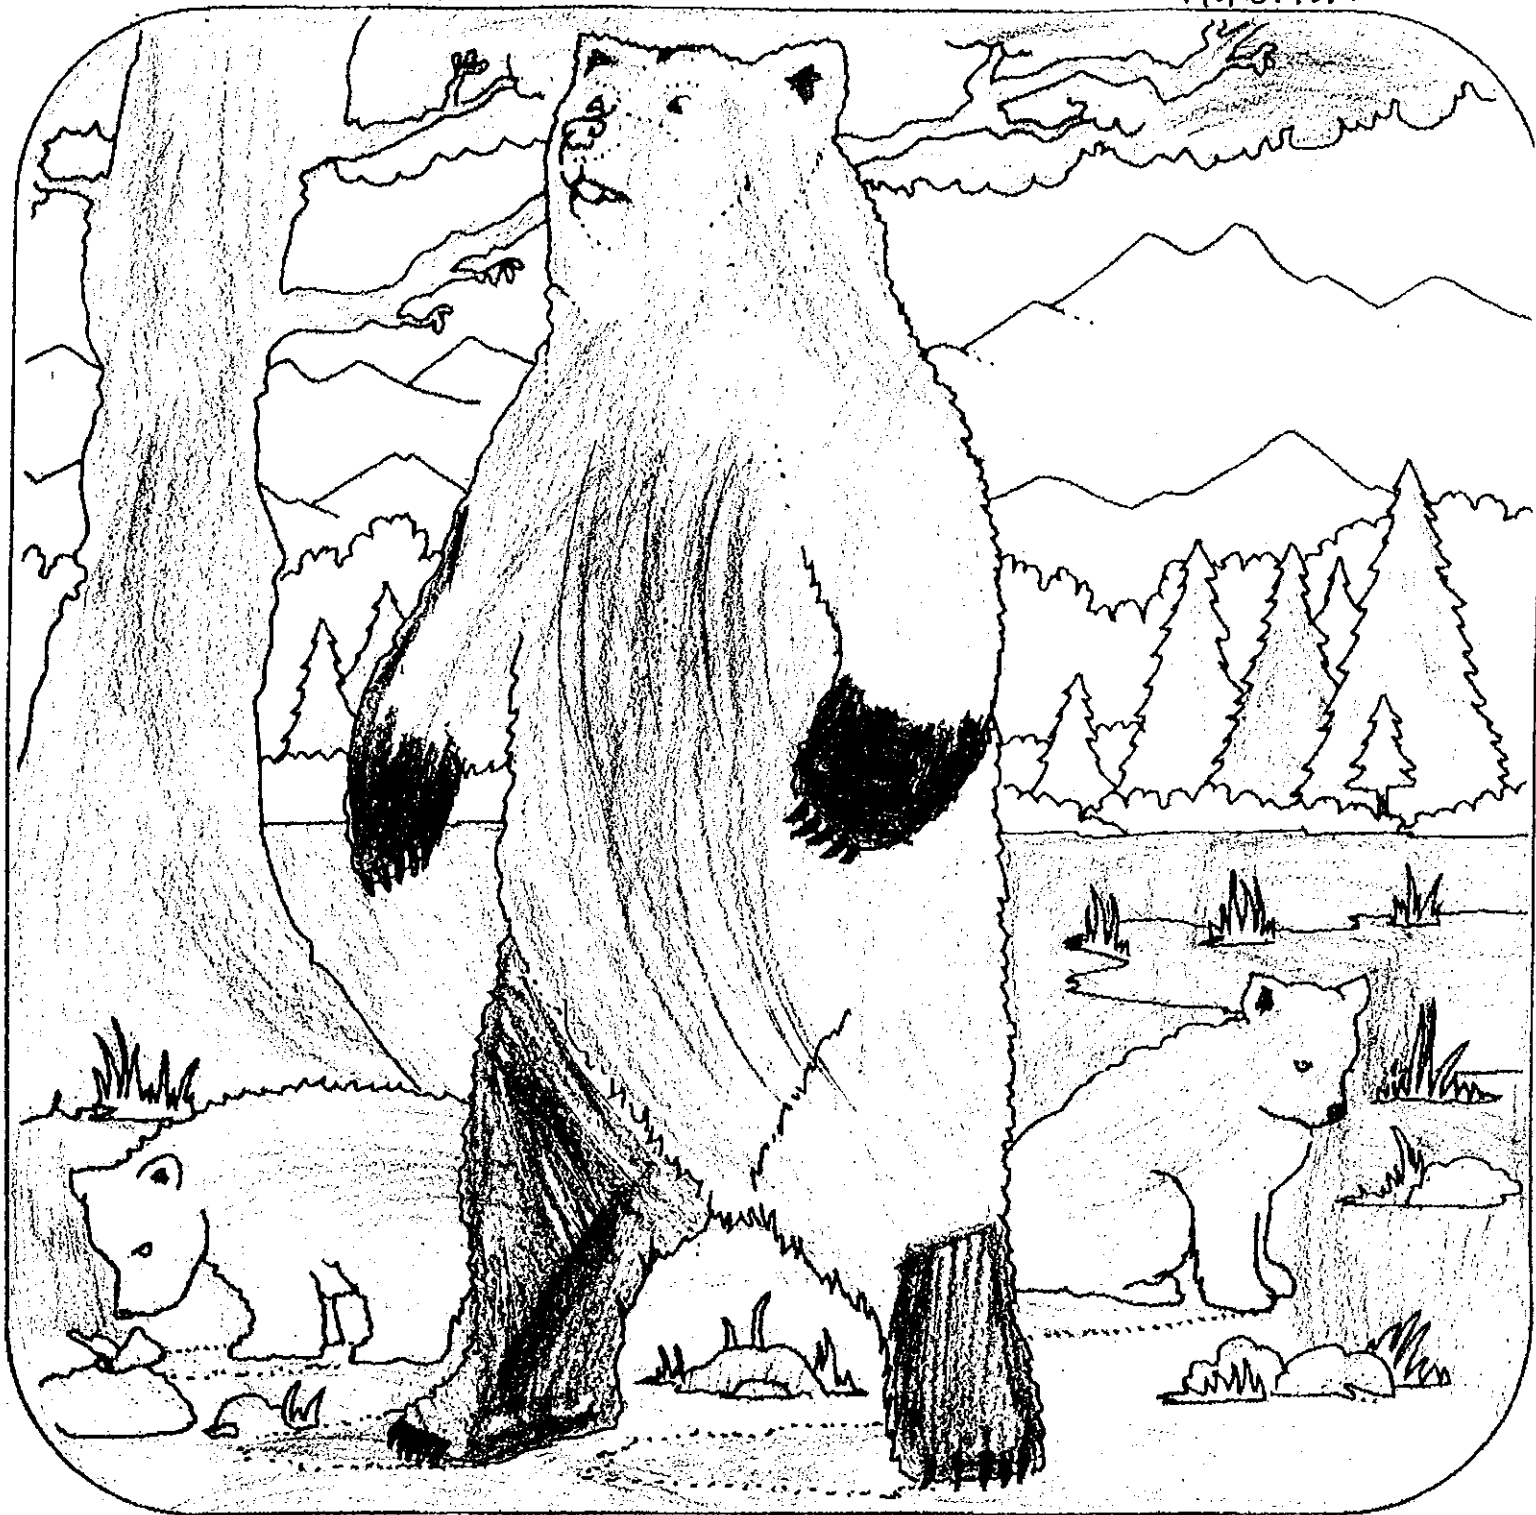

Grizzly Bear

Name: Jennifer

Grizzly Bear
Habitat

The Bear Facts

1. We like the mountains.
2. We like meadows.
